

**THE NATIONAL GAS COMPANY
OF TRINIDAD AND TOBAGO LIMITED**

THE FUTURE LOOKS BRIGHT FROM HERE

A bold strategy for managing our Nation's valuable natural gas resource has become a global success story. Now, over 38 years, we have cemented the foundation of a thriving economy by driving an innovative and diverse energy sector.

Our values as a corporate citizen have forged close ties to numerous community and Caribbean-wide initiatives, as NGC provides vital support in Sports, Arts, Culture, Conservation, Education and Entrepreneurship.

Natural gas is the national patrimony. NGC's 1,000 kilometer on-and-off shore pipeline network is, for us, a symbol of the life-blood that runs through the very heart of our country, and which will sustain us for many generations to come.
