# **New Compressed Natural Gas (CNG) Service Station Opened in Pt. Lisas**

## **Media Release**

### **FOR IMMEDIATE RELEASE**

**January 26th 2015** — The NGC CNG Company Limited (NGC CNG), is pleased to announce the commissioning of its new Compressed Natural Gas (CNG) service station at the NGC parent's Warehouse Field Complex located in Pt. Lisas. The new station will be used by NGC to fill its vehicle fleet of more than 200, with CNG.

The NGC CNG Service Station is equipped with state-of-the-art compression, storage and dispenser equipment supplied by AGIRA, a leading global CNG equipment supplier based in Argentina.

The compressor is a 3 Stage Reciprocating Unit that receives natural gas from NGC's pipeline network at approximately 350 psi and compresses and discharges CNG to NGC's fleet of pick-up trucks and sedans at 3,000 psi.

Project engineer of the NGC CNG Company Limited, Kala Trebouhansingh, is happy with the station's completion. She said, "When we got licenced to operate, everybody was relieved. It is with a great sense of pride that we are able to utilize this station to fill our (NGC) vehicles."

Eugene Williams, Instrument Technician III who works at the Warehouse Field Complex, was also elated that the station had been completed and ready to service the company. He said, "The challenges in the commissioning stages were overshadowed by the elation of seeing fellow employees pull up and pop their vehicle bonnets to fill up with CNG right at our Warehouse Field Complex. This confirmed that we are capable of boundless feats."

NGC, in constructing the service station, complied with stringent and detailed regulatory requirements of several statutory authorities.

The NGC CNG Company Limited (NGC CNG), a subsidiary company of The National Gas Company of Trinidad and Tobago Limited (NGC), has the mandate to develop a Compressed Natural Gas (CNG) industry in Trinidad and Tobago, and thereby, offer the population an alternative, cost-effective, environment-friendly transportation fuel.

This new station is not open to the public.
