

## PAN in PRIMARY AND SECONDARY SCHOOLS

## CREATING THE RIGHT CHORDS FOR **OUR CULTURE AND OUR CHILDREN**

From our support of SteelFesTT and unsponsored steelbands at Carnival, to the construction of the NGC Couva Joylanders Steel Orchestra's "House of Steel" Pan Theatre in Couva. The National Gas Company of Trinidad and Tobago Limited (NGC) is committed to the continued development of the steelpan in our nation.

As title sponsor of Sanfest, the Annual Junior Arts Festival for primary and secondary schools, NGC provides significant assistance to the San Fernando Arts Council in carrying out this festival, which provides a platform for the nation's children to showcase their talent in drama, dance, music and visual arts. The steelpan component of the programme allows participants the opportunity to demonstrate their prowess in playing our national instrument.
