

ATTENTION GENERAL PUBLIC

COUVA CHILDREN'S HOSPITAL (CCH) PROJECT

The National Gas Company of Trinidad and Tobago Limited (NGC) will soon commence construction of a Ø102mm (4-inch) diameter natural gas pipeline to the Couva Children's Hospital compound, located at Preysal, Couva.

The pipeline will begin from NGC's existing Ø406mm (16-inch) diameter gas line in the vicinity of the old train line bridge, and run east for approximately 6.4km along the Rivulet Roadway Reserve. It will cross the Solomon Hochoy Highway, proceed south then east into the Couva Children's Hospital and Multi-Training Facility compound in Preysal Couva.

The works comprise the laying of pipeline by "Open Cut" and "Horizontal Directional Drilling (HDD)" construction methods. There will be no resultant damage to the road surface.

Duration of Works:	62 calendar days
Commencement Date:	Monday 5th January, 2015
Days of Work:	Monday to Saturday
Hours of Work:	7:00 a.m. to 5:00 p.m.

NGC is asking all motorists and pedestrians to exercise caution when in the vicinity of the works. Police officers and traffic wardens will be on hand to manage the flow of traffic.

NGC assures the public that all operations will be conducted with the public's safety as its highest priority and every effort will be made to minimize any inconvenience.

If you have any concerns during the period of construction, please contact:
