Trinidad and Tobago COVID-19 (Novel Coronavirus) Update # 390

Port-of-Spain, August 11th 2020: As part of the national drive to safeguard the health of the Trinidad and Tobago population in the face of the global COVID-19 outbreak, the Ministry of Health continues to provide up-to-date information on the country's status in this regard.

The Ministry of Health reminds the population to source your information only from official sources, such as the Ministry of Health or Ministry of Communications.

The Ministry of Health provides the following clinical update as of the **morning of Tuesday 11th August, 2020:**

Number of samples submitted to the Caribbean Public Health Agency (CARPHA) and UWI site for testing for COVID-19	11,387
Number of unique patient tests completed	9,800
Number of repeated tests	1,587
Number of samples which have tested positive	295
Number of deaths	8
Number of persons discharged	139

The fourteen (14) positive cases reported below show results from samples taken during the period August 7th, 2020 to present. Therefore, this figure is NOT representative of the positive cases over the last 24 hours only.

 - One (1) is a contact of a recently positive COVID-19 patient.
All established protocols have been implemented.
- One (1) person has been discharged from the Caura Hospital.

COVID-19 Positive Patients in Hospital – (116). Twelve (12) patients are en route/ being admitted to hospital.

Couva Hospital and Multi-Training Facility	69 1 (ICU)
Caura Hospital	47

Total number of active cases – (148)

COVID-19 Positive Patients in Step-down / Transition Facilities – (20) – Brooklyn Facility, Sangre Grande

Intensive Care Units (ICUs) are hospital wards that provide treatment for people who are very ill. They are staffed with health care professionals who are trained in ICU treatment and the use of sophisticated monitoring equipment.

High Dependency Units (HDUs) are wards for people who need more observation, treatment and nursing care than is possible in a general ward but slightly less than that given in an Intensive Care Unit.

An Ambulatory Patient is able to walk about and is not bedridden.

If you or a loved one develops symptoms of COVID-19, please call the hotline 877-WELL or 800-WELL (9355) for further guidance. If the person is severely ill, call the 811 (emergency hotline) or call ahead to the Accident and Emergency Department of your nearest hospital for help and go in immediately.

The Government of Trinidad and Tobago will continue to update the public via its official communication channels such as the Ministry of Health's website (health.gov.tt), the Ministry of Communications Websites (moc.gov.tt and news.gov.tt) and the relevant social media pages of these entities (Facebook, Twitter and Instagram).
