Additional COVID-19 (Novel Coronavirus) Information for Update #512

The Ministry of Health provides the following additional information:

- 27 additional persons have tested positive for COVID-19.
These new 27 new patients will be processed for admission at the discretion of the CMOHs.
- 15 persons have been discharged from public health facilities.
- There have been 64 recovered community cases.
Recovered community cases refer to persons who were previously COVID-19 positive and in self-isolation at home and subsequently met the discharge criteria and were released from self-isolation.

It was noted on the 9th October, 2020 that 6 recovered community cases were omitted in error from the "Total recovered cases". The 6 recovered previously omitted have been added to the dashboard to rectify the anomaly ($3,367 + 64 + 15 + 6 = 3,452$).
