

Attention General Public, Residents, Businesses and Motorists of Edinburgh 500 and Environs

The National Gas Company (NGC) is constructing a 2" diameter natural gas service main to the **MEDFORD BRENTWOOD SERVICE STATION** in the vicinity of the Brentwood Roundabout, Edinburgh 500.

The pipeline and related metering facilities will provide natural gas for the Compressed Natural Gas (CNG) filling units.

Approximately 275 metres of carbon steel pipeline will be installed by Horizontal Directional Drilling.

**Commencement:
11th November, 2011**

**Days of work:
Monday to Saturday**

**Hours of work:
7am to 5pm**

Motorists are urged to exercise caution when in the vicinity of the works. Warning signs will be erected and police officers and traffic wardens will be on hand to manage the traffic.

NGC wishes to assure the public that this project, as with all our operations, will be conducted with the public's safety as our highest priority and every effort will be made to minimize any inconvenience.

If you have any concerns during this period of construction please contact:
NGC Control Operator or 800-4Gas (4427).
