

## The National Gas Company of Trinidad and Tobago Limited

### Press Release

#### For Immediate Distribution

During the past 24 hours, NGC has received an unusually high level of liquids from our gas supply network. This has resulted in a restriction in the gas distributed to T&TEC and to some of our other customers. The restriction to T&TEC, which started at approximately 7:00 a.m., will be normalized no later than 10:00 a.m.

NGC regrets any inconvenience resulting from this situation and assures the public that gas supply for electricity generation remains our highest priority.
